

Red Light & Infrared Sauna

Delivers a comfortable, wellness experience in one efficient session. RedZone Sauna provides a comforting experience for tired muscles while supporting relaxation and overall well-being.

Heat + Light Together

Infrared warmth and red light combined to deliver two trusted wellness modalities in one efficient, session.

Modern Standalone Design

Its compact, all-in-one footprint delivers a premium wellness experience without requiring dedicated buildouts or complex installation.

Built For Frequent Daily Use

Purpose-built for high-traffic environments, RedZone Sauna runs reliably day after day with minimal operational oversight.

Key Features

Commercial-Grade Interior

Durable, moisture-resistant surfaces wipe clean quickly and stand up to daily use

Built-in Safety Controls

Smart alerts and timer compatibility help sessions run smoothly and reliably

Full Coverage Red Light

Targeted wavelengths for full exposure

Dual Infrared Heat

Far- and near-infrared warmth combined for a consistent, heat experience

Enhanced Heat Flow

Forced-air circulation helps deliver a noticeably warmer, evenly distributed heat experience throughout each session
